Learning languages

Travelling

Work Experience

ContentOffice

Sep 2018 — Feb 2019

- Released the first closed beta version of the ContentOffice Android app
- Adopted Clean Architecture and SOLID principles to improve maintainability
- Improved the quality of the app based on feedback from users and QA specialists
- Delievered new features (such as bulk Instagram post scheduling and folders for post caption templates)

FG Inc.

Nov 2017 — Jun 2018

- Successfully delievered a video collage app for kindergarten teachers
- Achieved high modularity of all parts of the app (camera, collage creation engine, core UI)
- Satisfied the requirement to use clean Java and as little third-party dependencies as possible

Yandex Mobile Development School

Aug 2017 — Sep 2017

- Delievered a weather app and a language-learning app for kids
- Architected and developed the core module of the app
- Joined the modules of all 4 developers on the team into a fully working app
- Collaborated with a designer to achieve clean and responsive UI
